The essence of a unique stone

Drawn over the centuries from ore, volcanic ash and slate, the Belgian Ardennes stone is the source of inspiration for the collection.

Disegnata nel corso dei secoli da minerali, cenere vulcanica e ardesia, la pietra belga delle Ardenne è la fonte di ispirazione della collezione.

Façonnée au cours des siècles par des minéraux, de la cendre volcanique et de l'ardoise, la pierre belge des Ardennes est la source d'inspiration de la collection.

Das belgische Gestein der Ardennen, das im Laufe der Jahrhunderte aus Erzen, Vulkanasche und Schiefer gewonnen wurde, ist die Inspirationsquelle für die Kollektion.

Moldeada a lo largo de los siglos a partir de minerales, ceniza volcánica y pizarra, la piedra belga de las Ardenas es la fuente de inspiración de la colección.

Источником вдохновения для коллекции стал камень из бельгийских Арденн, который представляет собой вековые наслоения минералов, вулканического пепла и сланца.

The profile of standard anti-slip surfaces has an accentuated alternation of peaks and hollows, which generates friction and increases slip resistance, but also results in very rough surfaces. In Sensitech, special micro-particles fill hollows, leaving the anti-slip performance intact, while the surface is levelled and smoothed. These qualities make cleaning easier because it is less likely to retain dust and dirt.
